

## OUR WORK

---

*Sweet Birch Music* is a comprehensive arts consulting and creativity enterprise. We will jump in and help on any project—not just because we’ve seen success in all the far ends of the arts—but because we are energized and poised with just the right mix of imagination + creativity + expertise to help you make great things happen.

We are poised to help with just about every phase of your arts operation, from design to implementation to assessment. We will work with you to shape “it”, define it, organize it, twist and shape it, budget it, and implement it. All with you, for you and with your personality and preference. In the end, “it’s” yours to cherish and share with your audiences.

## EXPERIENCE + CONSULTING
